Evaluation Guide - 2022

Confed Hockey has made some changes to the evaluation process this season.

This guide is intended to outline the process, and answer the most common questions received from parents and coaches.

The second page of this guide contains a detailed breakdown of the process.

A detailed explanation of the Multi-Station Evaluation for U9 and U11 will be provided separately.

Evaluation Format

U7 (Sr Timbits only) - Evaluation will consist of a short timed skate, with the goal of making balanced teams

U9 - Evaluation will consist of a timed skate (similar to last year), plus a Multi-Station evaluation skate

U11 - Evaluation will consist of a timed skate (similar to last year), followed by a Multi-Station evaluation, followed by a scrimmage

U13 - Evaluation will consist of a timed skate (similar to last year), followed by two scrimmage sessions

FAQ

Q: Why are timed skates used at all?

A: Past seasons show that the timed skates do a very good job as the first evaluation to group kids with similar skill levels. They provide a consistent and fair way to determine the initial groups for the following sessions.

Q: Why is there a second evaluation for U9, and three evaluations for U11 & U13 this year?

A: While the timed skate provides valuable information and data, many skills are not captured. Feedback from parents and coaches also indicated that some skaters would have been better placed had they been given a chance to show their skills in a game-like setting. The third skate in U11 and U13 will provide our Directors more data to assist with better team formation.

Q: Why aren't U9 playing in a scrimmage?

A: U9 does not play full ice games, so a full ice scrimmage wouldn't be appropriate. The 3 on 3 station as part of the Multi-Station evaluation will give players the chance to show their skills in a game-like setting.

Q: What is "Multi-Station Evaluation?"

A: Think of it as a controlled practice. Stations will be set up with mini-games, battle drills, etc. This will highlight the skills not captured by the timed skate; Shooting, passing, hockey sense, aggression, awareness, mobility, etc.

Q: Who is doing the evaluating?

A: Confed hires an independent group of evaluators to monitor the scrimmage / multi-station sessions, and provide evaluation results to our Directors. They are neither parents nor coaches of Confed players.

Team Formation Criteria

Streams of Play (SoP)	Directors make every effort to satisfy the Streams of Play choice of families. Time and cost are important to families, and Confed endeavours to respect the choices of our families as much as possible. However, it is important to note that <u>Streams of Play will NOT be used to place a player in a tier that isn't appropriate for their skill level.</u> If you have questions or concerns about Streams of Play, please contact Hockey Ops.
Equitable Skill	Equitable Skill is the primary consideration for a players' team placement (along with SoP as described above). Players will have the most enjoyable and successful hockey experience if they are placed in a tier suitable for their skill level. The evaluation process is designed to give all players the opportunity to showcase their skills, while giving Directors the necessary information to correctly place players on teams.
Coaching	Every effort is made to select coaches from within the tiers established by the evaluation process. If options have been exhausted and coaches are required for a team, as a last resort a player may be moved up or down 1 tier in order to provide a team with a needed coach.
Position	In U11 and U13, positions may be a factor used to determine which team players get placed on, but only if the considerations above can also be satisfied.
Friend Requests	Reciprocal friend requests will be granted if practical. If the evaluation process separates players by more than 1 tier, friend requests cannot be granted. A player may move down a maximum of one tier. Players are not permitted to move up a tier to honour a friend request.
